

We are changing the way we do business for a while

COVID-19 Response

There is a lot changing at the moment and we are changing some of our services to keep vulnerable people in our community, and our team safe. We love having people come to Wuchopperen and celebrate at different times of the year, but at the moment we are asking you to stay at home as much as you can. You can keep updated with how things will change on our website or you can phone us at anytime.

Playgroups

To help protect everyone who attends our playgroups we have decided to stop playgroup until further notice. We are also stopping our other programs at the Children and Family Centre. You can still reach our team by calling them on (07) 4080 1159 and follow us on Facebook for activities to do with your kids at home

Home Visiting

We are still conducting home visits with our existing clients, but we are monitoring the situation closely and this may change. We are contacting each family by phone before arriving to see if families are ok with visits which will happen outside. If we need to cancel visits, we will move to doing our sessions over the phone.

Exercise Groups

We will be stopping our men's and women's exercise groups until further notice. We will be posting videos online on how to do exercises at home to keep you fit and healthy.

Outreach

Our outreach services have been cancelled at this stage. But our clinical services and Wuchopperen Manoora and Edmonton are still operating, with Telehealth (consultations over the phone) happening for some clients.

Transport

We are still providing transport in essential cases, however we can no longer provide low car pick ups due to social distancing recommendations.
